FR: John Lanka 
Principal, Monroe Elementary School

I want to take a moment to thank you and your organization for providing a high-energy performance on such a relative topic. Our students and our staff were talking about the main theme of the message all day today.

Helping children learn that they can be proactive and make a difference in their own lives and the lives of others is an important lesson for our students to learn and to internalize. Your presenter did a very effective job.

Everything from the booking agent, the booking process and the set-up and tear down was handled professionally. Thank you for your service. My students (and staff) are eager to have you come back next year!
