Dear Mr. Wilkes,

I am writing to thank Omega Man for presenting such an uplifting and challenging program to our students at Pinewood Elementary. Omega Man did a wonderful job of communicating to our kids the importance of making good choices and how these choices today will make a difference today and forever. The teachers were very encouraged by the themes taught and are even continuing to reinforce these themes in the classroom. We had a positive response from our educators, students and parents that were present at the assembly. We set up a display in our media center of the items Omega Man left us to remind our students about the power of good choices. Our Pinewood News Network (PNN) is playing the messages left on the DVD, which has been an excellent way to continue reinforcing and reminding our students of this great assembly and lessons taught. Thank you for your excellent assembly and we will definitely consider bringing Omega Man back to our school.

Go Panthers!
