Dear Marc,

Your visit was awesome! Your program is motivational, effective, meaningful, and energizing! Your props and demonstrations are unforgettable! The money, toothpaste, water, phonebook, bat, towel, signs, piggy back ride, etc. certainly captured student interest! From my conversation with you, your program has certainly come a long way. You are exceptional at what you do, so take your own advice, don't quit! You are making a difference and communicating it in a fun and motivational way.

Share this letter as you wish-----I would recommend you to anyone and we will certainly have you back again! Go OmegaMan!

Best of luck as you progress with your dream!

Sincerely,

Donald E. James
