Dear Mr. Wilkes,

I wanted to express my appreciation for the dynamic OMEGA-MAN presentation that my students enjoyed. It was eye catchingly motivational and our students connected with the message.

The presentation for middle school met their emotional level and the presentation that the primary/intermediate student enjoyed was on their level. I heard the messages that my faculty so frequently spout put into a much more engaging manner. This program helped solidify our message of anti-bullying and every person can make a difference.

Thank you for the marvelous presentation. I would recommend your program to friends and colleagues.

Cordially,

A handwritten signature in black ink, appearing to read "Deborah A. Schwope".

Deborah A. Schwope, M. Ed.
