Dear Mr. Wilkes,

On behalf of the staff and students at Veterans Memorial Elementary School, I would like to thank you for the outstanding program you presented to our school community. All of our students, from first through fifth grade, were engaged and attentive throughout your entire presentation. The message you communicated, "Be a dream maker, not a dream destroyer" really hit home with them! It also helped reinforce our character education program, T.R.R.F.C.C (Trustworthiness, Respect, Responsibility, Fairness, Caring, and Citizenship).

We meet with our entire student body on a monthly basis to discuss the six pillars of character education. It is something we value very much here at Veterans Memorial Elementary School. Our students truly enjoyed listening to you speak about making good choices and following their dreams---not to mention watching you bend, twist, and break things too!

We hope to invite you back to our school in the future to perform again.

Yours truly,

Susan A. McNamara, Principal
